Dear School Director,

I am a year-two student in Computing Programme at the Macao Polytechnic Institute. I would like to express my strong interest in applying to the summer school in Your University online this summer. I would be very appreciate if I could participate.

I have a good ability of self studying, and I am very interested in Computer Science and it's related topics. I am confident in my skills in Computer Science including Programming, Algorithms, Data Science aspects and so on, you can check a detailed information about my skills and awards in my CV. When I heard the information about the summer school program, I was attracted to this precious opportunity to get a glimpse of Master-level studies. The summer school will board my views. I believe that during this program I will learn many of interesting Computer Science related skills and I feel so grateful in having this opportunity.

I am so grateful that I can participate in the online summer school at the University of Bologna this year. I will do my best in this program, and I believe what I will learn in this summer will be very helpful to my future career.

Yours sincerely,

Steve Yan
